Get started

Material Theming

KOÇ
UNIVERSITY

Colors

- Represented by a hexadecimal (hex) color value
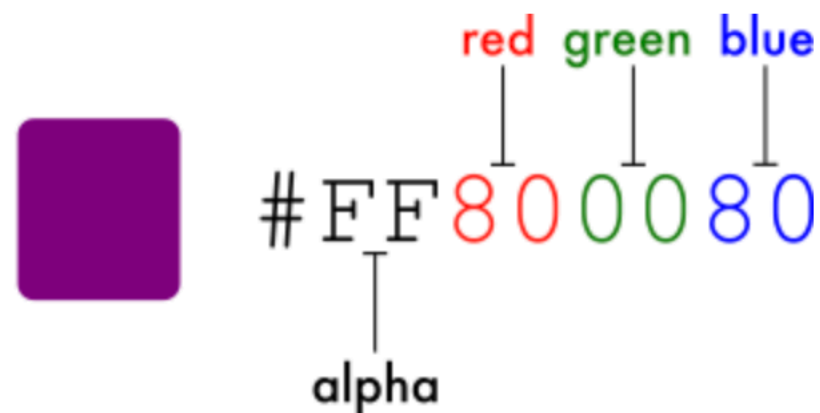

- Use Material Theme Builder to create a color scheme
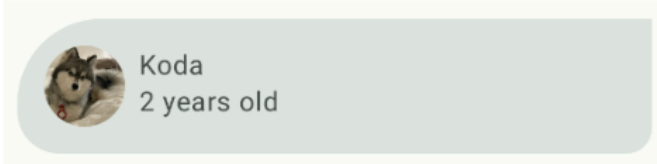

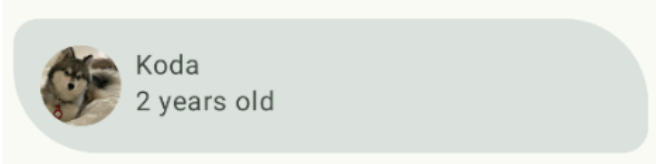

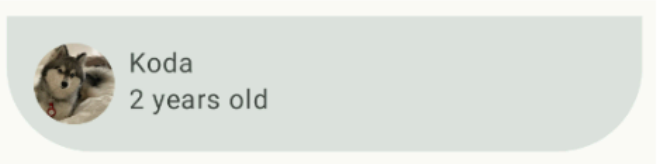

KOÇ
UNIVERSITY

Shapes

- Applying a shape can change so much about the look and feel of a composable.

- Many shapes are defined using `RoundedCornerShape`, which describes a rectangle with rounded corners

0.dp	25.dp	50.dp
Koda 2 years old	Koda 2 years old	Koda 2 years old

KOÇ UNIVERSITY

Shapes

- You can also customize shapes further by adding different rounding percentages on each corner.

| Top left: 50.dp Bottom left: 25.dp Top right: 0.dp Bottom right: 15.dp	Top left: 15.dp Bottom left: 50.dp Top right: 50.dp Bottom right: 15.dp	Top left: 0.dp Bottom left: 50.dp Top right: 0.dp Bottom right: 50.dp
Koda 2 years old	Koda 2 years old	Koda 2 years old

KOÇ UNIVERSITY

Typography

- By default Android system uses Roboto as typeface

- The naming and grouping have been simplified to:

  - display

  - headline

  - title

  - body

  - label

small

medium

large

15 styles in total
